

# N LIFE SLIM A/S MANUAL

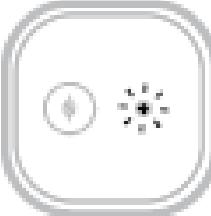

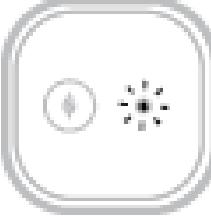

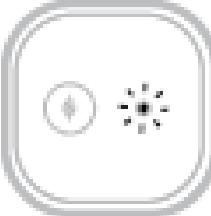

Contribute to human health with highest technology and best efforts and service

# 1.증상에 따른 ERROR CODE

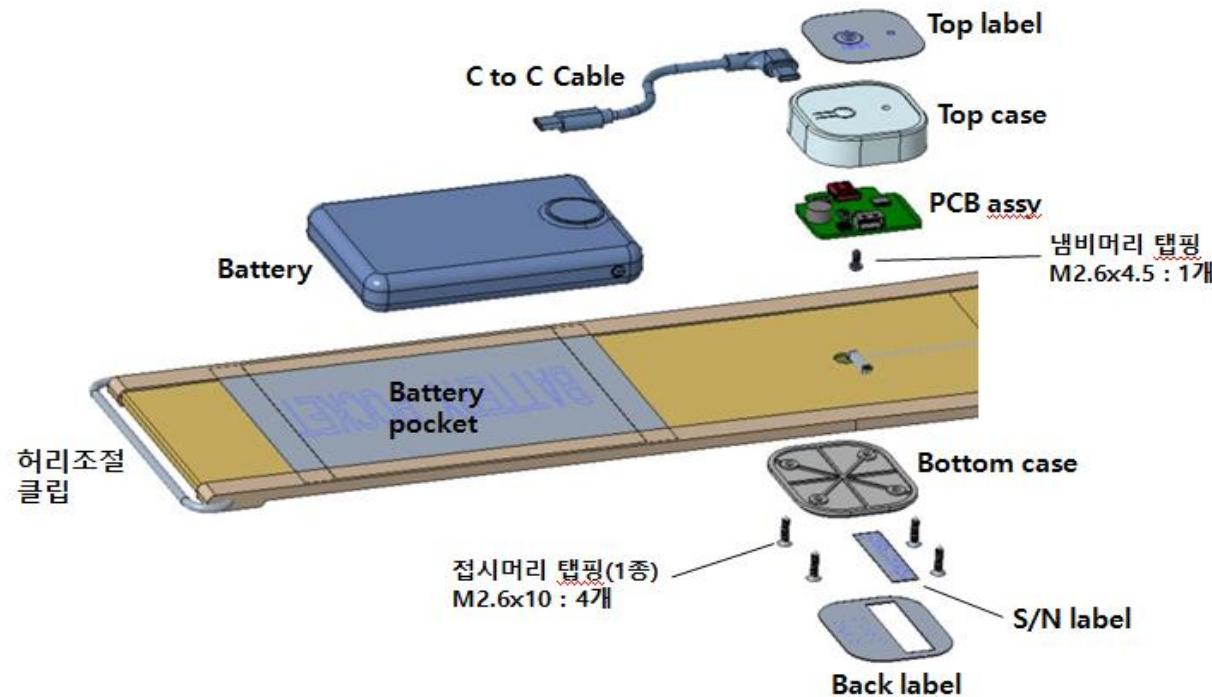

## ERROR CODE Depending on Symptoms

Display	Descriptions	Display location
 LED (green)	Temperature Sensor Disconnection (Severed)	LED Buzzer sounds twice per second, and the green LED blinks repeatedly.
 LED (orange)	Temperature Sensor Short Circuit and Overheating	LED Buzzer sounds twice per second, and the yellow LED blinks repeatedly.
 LED (red)	Abnormal Power Input	LED If the connected USB-C power is not 12V, the buzzer sounds twice per second, and the red LED blinks repeatedly.

## 2. 부품 분해도

### Part disassembly drawings

[ N life slim 부품 분해도 ]

### 3. 제품 분해방법

### Product Decomposition Method

① 빽라벨을 제거 후  
4개의 볼트를 제거해  
TOP 과 BOTTOM  
사출을 분리 한다.

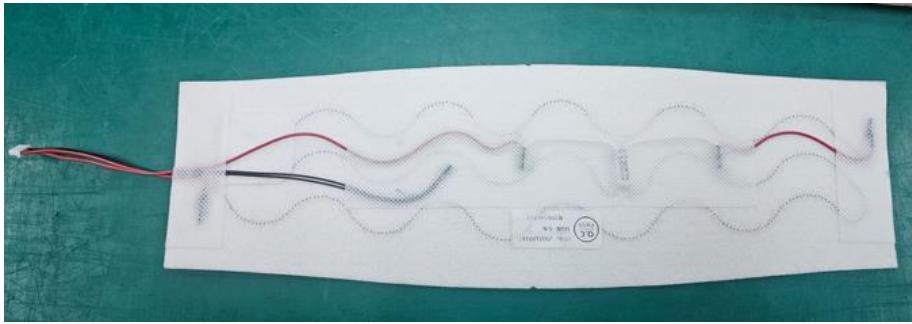

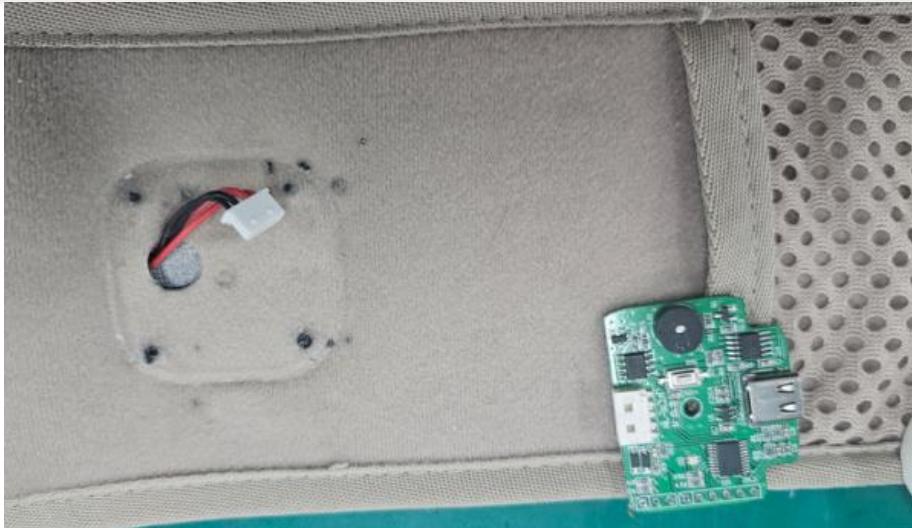

After removing the  
back label  
Remove the four  
bolts  
TOP and BOTTOM  
Remove .

② TOP 사출중앙에 고정 되어  
있는 PCB 고정 볼트를 풀려낸  
후 PCB 를 분리 한다.

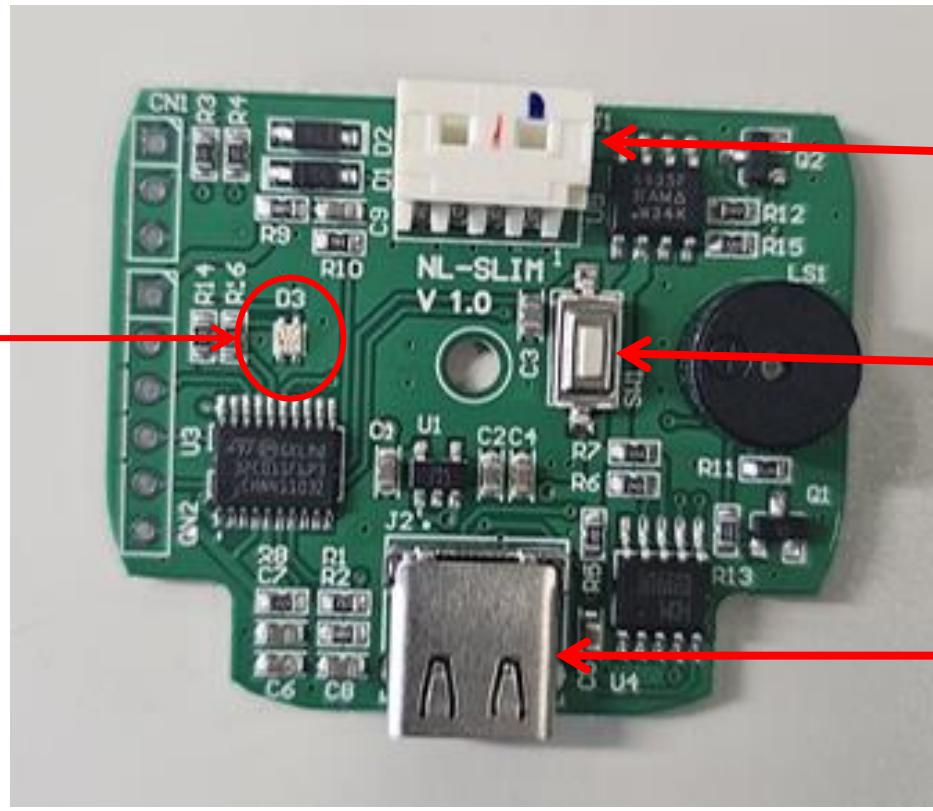

Remove the PCB  
fixing bolt fixed to  
the center of the TOP  
injection and remove  
the PCB.

### 3. 제품 분해방법

③ 고장난 PCB를 교체한후 분해의 역순으로 조립한다.  
After replacing the broken PCB,  
assemble it in reverse order of  
disassembly.

Heating element connection

조작버튼  
operating button

배터리 연결부  
Battery connection

## 5. 열선, 온도센서 바이메탈 배치

빨간색 2가닥 – 열선 : 10Ω 내외  
검정색 2가닥 – sensor. 10KΩ 내외

Red 2 strands – Heat wire: Around 10Ω  
Black 2-stranded – sensor. Around 10kΩ
